OVERVIEW

The Wintrust Wealth Management Insured Bank Deposits (IBD) program is a secure and convenient way to invest large sums of cash at a competitive interest rate, while maintaining full daily liquidity. IBD can offer you complete FDIC insurance coverage on deposits up to \$3.75 million through a single banking relationship that provides you one consolidated monthly statement. The IBD program works by utilizing the 15 affiliated bank charters of our parent company, Wintrust Financial Corporation. Through this unique relationship, your deposits are dispersed in increments of \$250,000 among our 15 affiliated banks, thereby affording you up to \$3.75 million of liquid, FDIC-insured funds.¹

ADVANTAGE OVER OTHER CASH EQUIVALENT INVESTMENTS

Money Market Mutual Funds are not FDIC-insured. These investment vehicles purchase high quality, short-term debt securities and other similar instruments seeking to maintain a net asset value of one dollar per share; however, there is no guarantee of share price. IBD offers interest rates similar to those of Money Market Mutual Funds, but with the security of FDIC insurance coverage.

Certificates of Deposit offer competitive rates, but cannot provide complete liquidity and FDIC insurance is limited to \$250,000 for depositors. With IBD, your cash is fully accessible and insured up to \$3.75 million.

Savings and other interest-bearing accounts cannot typically offer comparable rates of return nor FDIC insurance for assets in excess of \$250,000.
